Introducing Our Previous Projects & Work

Now we are introducing our previous work and projects done in Egypt or international and all the photos will be displayed is from our copyrights and no one have the right to use them.

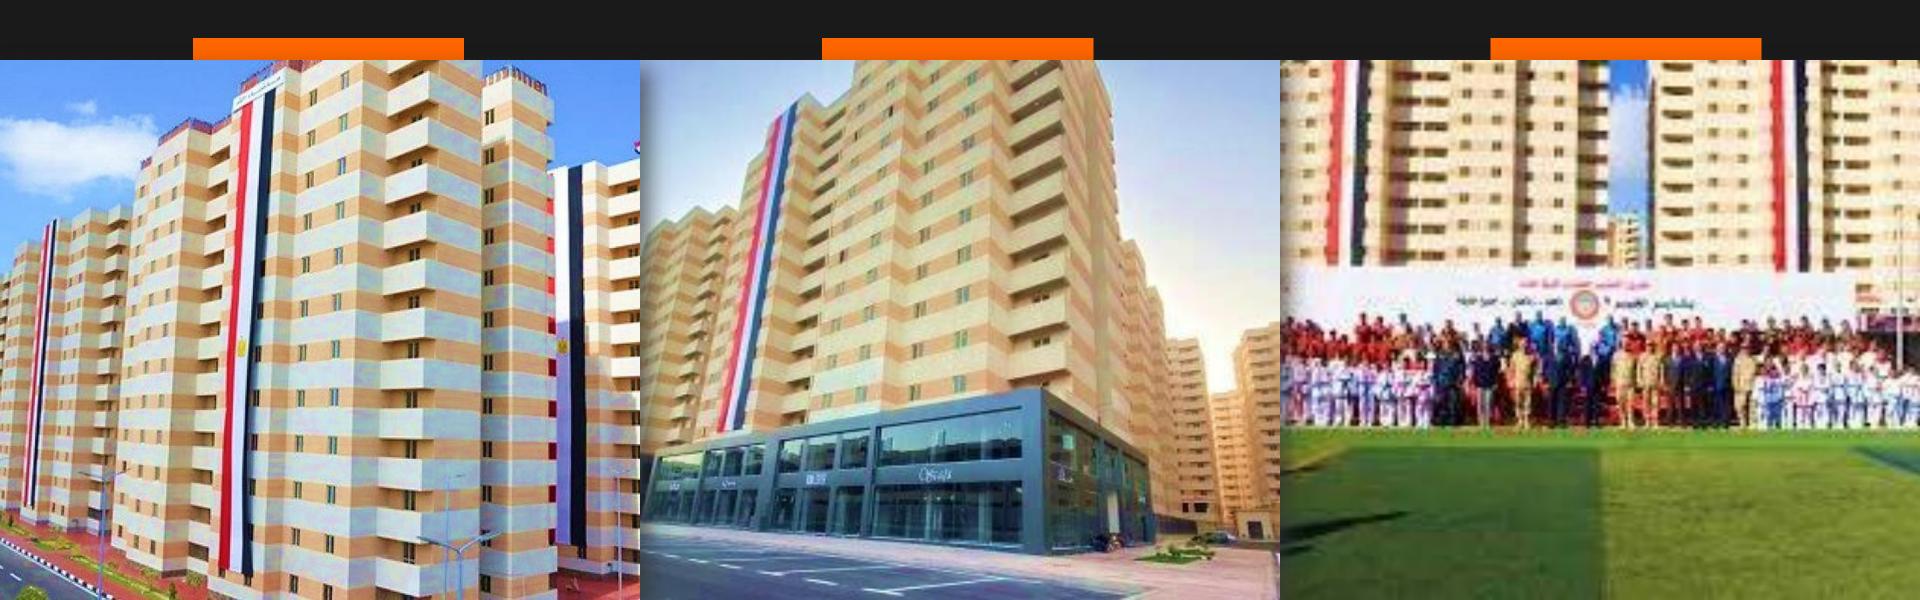

Bshaer ElKheir One Of Our Largest Projects

Bshaer ElKheir A group of projects done by Arms company in Egypt , Bshaer ElKheir is a group of compounds and buildings & also apartment it is considered as a small city , this project has many branches like "Bshaer Elkheir 1-2-3-4 , and then in number [5,6] It's name was changed into Msharf ElKheir

This is a real one of our largest projects done, by dealing with the Egyptian Army & Armed Forces to do this huge Project.

Egyptian Express Train From Alamin To Ain Sokhna Project

The express train project known as the El Alamein train is an integrated network of fast trains, which will connect all parts of the Republic to each other, provided that the first step of the project is to link the cities of the Red Sea and the Mediterranean. In addition, the Minister of Transport stated in a phone call that this project is the beginning of a new system called the Electric High Speed Rail Network; This system will represent a qualitative leap in the path of local and commercial transportation within Egypt.

Future City Egyptian Construction Project

The city of the future is a milestone in the field of real estate development, for its implementation is based on housing solutions, and the establishment of modern methods in modern architectural construction, in addition to designs and the provision of all services and facilities.

It is one of the most important architectural projects in Egypt, and it is a project that has many housing units available to reduce the population density, located in the cities of Cairo and the downtown area. It is also a city that is considered a living and investment interface for individuals, as it is one of the finest residential cities, which was built with the latest modern architectural methods, as it is considered a vital area in the middle of major roads. Therefore, the city has many services and public facilities, green spaces and beautiful places that attract all customers, starting from the engineering design of the housing units and services to the unit prices and the payment system.

Ismalia Quay "Traki" Project

Arms Participation in this project (Ismailia Quay):

- Land scape and hard scape works Supplying, installing, dismantling and re-installing the interlock
- Supplying Kino Carps trees
- Digging a trench for planting Kino Carps trees Supply and installation of a wooden cladding frame.
- Supply and installation of wallpaper.
- Supply and installation of granite lintels.
- Supply and installation of polycarbonate sheets.
- Making rooms for the need for an electric box. Supplying and making clay brick buildings.
- Landscape [Interlock Granite Tiles Trees]

Backfill and purification Axis of Hope (formerly Mahmoudia Canal) Project

Mahmoudia Corridor is a double road and one of the main roads inside the city of Alexandria in the Arab Republic of Egypt with a length of 23 km and a capacity of 6 to 8 traffic lanes in each direction.

It was built by filling and covering the waterway of the Mahmoudia Canal through buried pipelines of large diameter.

The axis starts from the administrative borders of Alexandria at kilo 56 east in the Khorshid area to the downstream in the Kabbari region at kilo 77.1 in the west,

Renovation of the leaders' chalets at the Muhammad Najib Military Base Project

The Mohamed Naguib Military Base is located in the city of Al-Hammam in Marsa Matrouh Governorate.

- It was built on an area of eight thousand acres.
- Major and strategic changes were established in Egyptian tactics, representing national protection, led by the "Smart Dabaa Station, Petroleum and the Borders."
- It represents a promising base with brotherly and friendly countries, and all advanced civilizational options are available. It is considered a successor to the city adjacent to the bath, which was established in 1993.
- Guaranteeing 1,155 buildings and facilities.

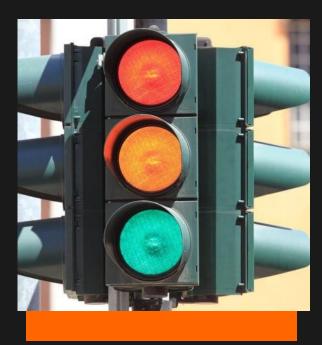

The base wall of Muhammad Najib Project

What We Serve In Solar Power?

What We Serve In Solar Power?

Development

Engineering, Procurement And Construction (EPC)

Energy Sales

Arms provides high-quality development services to ensure every aspect of the planning, designing, executing, testing and integration of solar projects meets our client's needs from beginning to end.

Arms provides comprehensive EPC services including designing, procuring, constructing, and commissioning power plants, as well as solar solutions for carports and rooftops. Our team of experts ensures peak performance for our clients' assets, with onsite operation and maintenance, remote monitoring and analysis, fast failure detection, and technical assessment.

Arms produces and serve selling energy using its own production assets. The energy is monetized through various programs such as feed-in tariffs, BOO, BOOT via government Power Purchase Agreements (PPAs) and then sold to customers.

Our Partners In Solar Power & Water Desalination In China

China Huadian Corporation LTD.

China Huadian Corporation LTD.(CHD) is a wholly state-owned power generation enterprise founded at the end of 2002 during the national power system reform.

It is also an ultra-large central SOE supervised by the State-owned Assets Supervision and Administration Commission of the State Council (SASAC) and a backbone SOE directly under the Central Government. CHD mainly engages in four sectors, i.e. power generation, coal, sci-tech and engineering, and finance. Its assets and businesses are distributed throughout the 31 provinces, autonomous regions and municipalities, and countries like Indonesia, Cambodia, Russia and Spain.

Solar PV project in Xiamen, East China's Fujian province

This solar PV project is located in one of Xiamen's top 4 industrial parks and is planned to be rooftop-mounted covering 66 houses owned by 6 enterprises.

CHD's first large-scale Photovoltaic (PV) power Project

In the desert - Jiayuguan PV Power Project.
